

# Hempstone

by Zegreenlab Construction

A TIMELESS COLLECTION

## NATURAL FIBER FURNISHINGS

Our mission is to produce timeless furnishings that support sustainable efforts creating a more harmonious relationship with humans and nature. By highlighting the beauty of nature's fibers that would otherwise be disposed of, we give opportunities for clients to help reduce harmful environmental consequences when creating new spaces. The furniture is functional, durable, and also a unique piece of art.

---

OUR HAND RENDERED PIECES  
ARE PART OF A LIMITED SERIES.

## HEMPSTONE BY ZEGREENLAB CONSTRUCTION

The collection is born on the edge of the Pacific Ocean, in Guanacaste, Costa Rica. This place attracts many for its majestic beauty and peaceful living. We draw from the vegetable, mineral, and ocean kingdoms to stimulate your home experience with natural pieces straight from the Blue Zone, cradle of health and longevity.

## HEMPSTONE SPECIAL FEATURES

Bagacrete® is the name of our patented construction material. Zegreenlab Construction uses a unique blend of vegetable fibers, including hemp, sugar cane bagasse, and rice husks for houses. We also use it to build the Hempstone furniture line. The pieces in this collection are unique and can be personalized according to client's needs.

Ecofriendly

Fire resistant

Locally made

Resistant to  
termites and rot

Durable

## A TIMELESS COLLECTION

Nature has its own language of harmony and comfort. Equilibrium resides in the beauty of ancient elements. Modern people seek this balance within themselves and their living spaces. We integrate a timeless essence in our home décor line to recreate a soothing atmosphere. We move through textures, aromas, higher vibrations, and tropical breezes. Each piece holds a force inspired by landscapes of the coast.
